LECTORI

Codices manuscripti CVI chrysostomici hoc in libro descripti illi sunt in quibus reperiuntur opera integra, fragmenta, et excerpta independentia Ioanni Chrysostomo siue certo siue dubie siue falso tributa.

Aestate anni MCMLXV inspexi omnes codices infra descriptos, praeter unum — illum Uniuersitatis Monacensis. Bibliothecarii omnes mihi auxilium beneuolum protulerunt, quibus gratias ago permultas. Postea microfilmis usus sum ad identificationes quorundam operum faciendas et confirmandas. Descriptio autem codicis Norimbergensis Cent. V, App. 46 non fit cum certitudine desiderata eo quod Bibliotheca Norimbergensis microfilmos bis petitos non misit.

Catalogus redigitur alphabetice iuxta nomina ciuitatum germanica. Post codices Bibliothecae Status Berolinae describuntur codices Berolinenses qui nunc Tubingae adseruantur, cum hi dicantur Berolinam, altera Bibliotheca Status in parte urbis occidentali erecta, remissum iri.

In Appendice colliguntur analyses quorundam operum compositorum, inter quae alia sunt inedita, alia edita, quorum fontes tamen in eximio *Repertorio Pseudochrysostomico* Patris de Aldama non inuestigantur.

Multis lectoribus Index erit pars huius operis utilissima.

Hunc librum offero praesertim ad usum eorum qui textus chrysostomicos et pseudochrysostomicos edituri sint. Ad illum scopum melius adsequendum, nullo opere humano perfecto, petuntur emendationes et additiones uirorum eruditorum. Codices chrysostomici tam multi sunt et tam uarii ut eorum plena inuestigatio non possit non fieri opus uere commune.

AUCTOR.
